

Heritage Youth Partnership - Heritage Project Evaluation Surveys

Information for group leaders

We want to know if participating in heritage projects has an impact on how people feel. This will help us to:

- explain how important heritage projects are,
- seek funding for future projects for uniformed youth organisations in the future.

The surveys can be completed on a mobile device or computer. Please contact flora.ward@yuf.org.uk if completing the surveys online is not possible.

All survey responses are anonymous.

Surveys for young people

Please ask participating young people to complete a short survey at the beginning and the end of your heritage project. There are two different surveys for Young People to choose from. The Easy Read version is shorter, for anyone for whom this might be more accessible.

Completing the same survey at the beginning and end helps us to measure any change.

If completing the survey at the beginning of your heritage project is not possible, please ensure they complete it at the end. We must receive completed surveys from your participants at the end of your activity in order to release the final instalment of the grant.

Surveys for leaders

Please ensure participating leader(s) complete this short survey at the end of the project.

We must receive a completed leader survey at the end of your project in order to release the final instalment of the microgrant.
